

Employee Spotlight: Marge DellaVecchia

It's often said that good things come to those who wait. And sometimes, the wait can take 30 years.

Marge DellaVecchia first developed a relationship with PS&S back in the 1980's when she was the construction project coordinator for Bally's Park Place and Golden Nugget. Marge got to know the firm well in her six years in Atlantic City and knew it was a company she respected immediately. Now, she is proud to be joining PS&S as a new Senior Director, based in Cherry Hill.

"I have known, worked with and valued PS&S for many years," said Mrs. DellaVecchia. "I am looking forward to introducing the excellence of PS&S to the South Jersey and Delaware Valley region. I am also privileged and honored to join such a distinguished group of professionals and look forward to working closely with all of the talented staff at PS&S."

Marge worked for Camden County for the six years prior to joining PS&S, most recently as the Deputy Director of the Municipal Utilities Authority. Her past experience in the public sector includes positions in state government with the Housing and Mortgage Finance Agency and the Department of Community Affairs and 13 years in various roles in Cherry Hill Township. She is a graduate of Rutgers University's Edward J. Bloustein School of Planning and Public Policy and is receiving the 2016 Career Achievement Award this fall.

"We are fortunate to have Marge DellaVecchia," said PS&S's Chief Executive Officer John Sartor. "Marge has decades of experience in southern New Jersey working with both private companies and state and local governments. Her knowledge of the area's business climate and the respect she has from both the public and private sectors will greatly add to PS&S's growing presence in the entire region."

In the past few months, PS&S has doubled its Cherry Hill office space and greatly enhanced the company's architecture and Health Care practice. In addition, PS&S's Cherry Hill Land Practice has grown to include expanded services in environmental, civil and survey offerings.

"As new opportunities continue to unfold in the region, we will work hard to ensure that we support the community and deliver quality improvements that are appropriate for all involved," added Mrs. DellaVecchia. "This is one of the characteristics that truly distinguishes PS&S from other firms and highlights the integrity and character of this organization."
